# **Best practices for monitoring the environmental impacts of shale gas operations**

Raffaella Russo

## **Second Annual Meeting**

**Blackpool - June 5-7, 2017**

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 640896.

# Task Activities

- Task 8.1 is currently evaluating the monitoring system, by considering the multiple risks analysed in the project.
- This task is responsible to outline guidelines for the objective and effective monitoring of environmental impacts caused by shale gas operations in all the phases in a project.

## Diapositiva 2

---

R1

andrew Gunning will collect all suggesgtions to fill up the guidelines delivearble.

Raffaella; 06/06/2017

# Future activities

D8.2	Guidelines for the monitoring of shale gas exploration and exploitation induced environmental impacts	1 - AMRA	Report	Public	36
------	---	----------	--------	--------	----

Deliverable 8.2 is a crucial one. The preparation of this report will start after this meeting
